

180. Consecutive Numbers

Table: Logs

Column Name	Type
id	int
num	varchar

- In SQL, id is the primary key for this table.
- id is an autoincrement column.

Find all numbers that appear at least three times consecutively.

Return the result table in any order.

The result format is in the following example.

Example 1:

Input:

Logs table:

1	1
2	1
3	1
4	2
5	1
6	2
7	2

Output:

ConsecutiveNums
1

Explanation: 1 is the only number that appears consecutively for at least three times.
