

273. Integer to English Words

Hint

Convert a non-negative integer num to its English words representation.

Example 1:

- **Input:** num = 123
- **Output:** "One Hundred Twenty Three"

Example 2:

- **Input:** num = 12345
- **Output:** "Twelve Thousand Three Hundred Forty Five"

Example 3:

- **Input:** num = 1234567
- **Output:** "One Million Two Hundred Thirty Four Thousand Five Hundred Sixty Seven"

Constraints:

- $0 \leq \text{num} \leq 2^{31} - 1$
